

# *SPRING* cleaning made easy for your public computers!

**C**enturion Technologies, Inc. the pioneer of Reboot Restore technology develops hardware and software products that prevent **ALL** unwanted changes from permanently affecting computers. Whether it's from Virus's, Worms, Trojans, "malicious users" to the "innocent clickers", etc... **All changes** will be wiped away at reboot and restore the machine back to its pristine image.

Our products are non-restrictive, allowing the user a full computer experience and assists libraries to successfully adhere to the NCLB Act. However, giving a patron the freedom to use and learn with computers can sometimes clutter up machines and increase overall maintenance.

*That's where we come in...*

With Centurion products on your computers, you will not expose them to adverse affects from such freedom of use, nor will it increase expenses to maintain them but will **DRASTICALLY REDUCE MAINTENANCE EXPENSES.**

With our remote manager CompuGuard Control Center you can easily manage any of Centurions products such as disabling protection to download OS updates and anti-virus definitions, Wake on LAN, Shutdowns or Reboots and many other functions...
